He will then comnence a full season, and may continue in the ection and Prince Edward till about the 20th uly, when he will go to Campbell and Amherst and remain there till some time in August or Is September. And, as I promised in the Spring he citizens of Albemarle, Fluvanna, Goochlan and Louisa a fall visit, he shall remain in the ounties till late in the fall—say, 1st November.
This nonpareil of a horse has met with no o onquering and to conquer in public opinion. Some persons, with more folly than wisdon have said he was too small, forgetting that i he best horse the world ever saw, was 31 inches ower than he, and the imported Medley 13. Jim Crack was the sire of Medley. They carried in mile heats 168 lbs., and ran it in less time that he present long-legged horses can, and carry 127 bs. He takes after the Medley and Diomed, in

which he is rich.

The old Medley and Diomed stock, for broad legs, pure eyes, bottom and riding action, surpased all other horses, and this stock is in him con ined As also before-mentioned, he runs bac Eclipse of England, Flying Childers, and the Sodolphin Arabian, exceedingly often. What s remarkable, his off or right hind foot is white ther Eclipse of England.—[See Stud Book]-must confess, that I have never seen such lorse; the best judges say so; and perhaps their s not such a horse in creation, take him all in all And, to test the matter, if any man will bring m his like in beauty, action and purity of blood will make him a present of this horse, whi s no ordinary present. The Queen of Shel could not have been handsomer, dressed in pu ole, on her visit to Solomon, (sire and kind, me alis mulandis.) And as for his riding action, would leave that to Solomon, were he living.

The curtain now drops for a long time between this horse and his owner, perhaps, as it is illy suited to his avocations. With profound regard

he public's obedient servant,
C. R. FONTAINE P. S. I will let Star of the West out in good ands for a fall season. June 16-dactds ROTARY PUMPS.

THE inhabitants of Richmond, and all others who may be interested, are invited to examine the Rotary Pump and Engines now exhibimine the Rotary Pump and Engines now exhibited in this city by the subscribers, at the office of the Southern Planter. Main street, nearly opposite the Banks. This Pump is found, upon a trial of 12 years, to be superior in operation, and more durable than any other in use—it has received a diploma from the American Institute for three successive years. The subscribers manufacture four sizes, which can be applied to Wells, Cisterns, Springs &c.; also for Stationary Engines for Factories, Moveable Fire Engines, Rail Hoad Stations for Supplying Reservoirs, and protection against Fire, and for any other purpose where a against Fire, and for any other purpose where a large quantity of water is required, being a per-fect Draught and Force Pump, drawing from 15 to 300 gallons of water a minute. This Pump has been extensively introduced in the New England States, and has given universal satisfaction, as can be shown by letters of recommendation in

ey such title as is vested in me by the said deed.
